Work Experience

SECTION LEAD, LAMBDA SCHOOL

REMOTE / JULY 2019 – NOVEMBER 2019

As a Section Lead, I directly managed 20 Project Managers as well as 200 students throughout a full-stack web developer program at Lambda School. One of my main duties were to guide Project Managers in a direction that impacted students' progress in learning-to-learn, professionalism, and career readiness.

Project Experience

WATER MY PLANTS (MAY 2019)

HTML | CSS | JAVASCRIPT | React | Redux | Node.JS | Express

Ensuring that all your plants are constantly watered is actually pretty difficult. Water My Plants is an app that helps to solve those problems.

SPLIT THE BILL (JUNE 2019)

HTML | CSS | JAVASCRIPT | React | Redux | Node.JS

When we get together with friends at a restaurant, it's nice to be able to make things easier on the server not split the bill. This app allows you to pay the bill then send an amount due to your friends.

WANDERLUST (OCTOBER 2019)

HTML | CSS | JAVASCRIPT | React | Redux | Node.JS | Express

Wanderlust helps local tour guides of all types advertise their private/professional trips and experiences they offer.

KANSHA (CURRENT)

HTML | CSS | JAVASCRIPT | React | Redux | Node.JS | Express

Recognition app to praise your co-workers and send gift-cards.

Education

FULL STACK WEB DEVELOPMENT, LAMBDA SCHOOL
